

"We extend our sincere thanks to all the people who are involved in the 2016 medical camp at Zanskar. Currently Zanskar Health Center is the leading organization in the field of welfare and medical services in the region. We are reliant on the help of volunteer medical camp such as you for all the initiatives. Without your kind support and energy, our medical center would not be able to reach such a big achievement. We would be grateful if you could come to Zanskar this year again. Our efforts have met with success due to the support of generous and caring people like you. Professionals people like you not only harnessed the potential of our young staff but also encourage us to work with sincerity and commitment. Your kind and caring action will serve as an example for others. You have done a service to our local people that will always remain in our heart."

DONATIONS NEEDED

Funds are needed for the purchase of medications, medical equipment, supplies for the medical camp and educational scholarships.

Our committment to sustainable programs involves identifying and training Zanskari health care workers to become competant providers in their health care system.
