# Work Resumes at Rainbow School Auditorium Hall

After the long winter break, work has resumed at the Rainbow School Auditorium Hall from **20th May**. The ongoing work includes filling the gaps between the steel truss and the walls on all sides of the building. These small gaps had been left unfinished last year due to time constraints before the onset of winter. The work is being carried out by the same contractor and dedicated team who successfully completed the major construction works last year, led by **Deb Bahadur** and his team. Their continued involvement ensures consistency in workmanship and quality. The completion of this remaining work will help strengthen the structure, improve insulation, and enhance the overall finish of the auditorium hall, bringing the project another step closer to full completion.

# Cafeteria as Temporary main School Office

Our Cafeteria building is now ready, with flooring, side paneling, ceiling work, and electrification successfully completed. At present, the cafeteria is being utilized as a temporary Main School Office. Owing to its solar design concept, the rooms maintain a comfortable and moderate temperature during the summer months, providing a pleasant working environment for staff and visitors.

The cafeteria will continue to serve as a temporary office space until the permanent administrative arrangements are finalized.

# Electrification Progress

Electrification work has also commenced in the new Multipurpose Auditorium Hall with the generous support of our volunteer, Mr. Christoph from Switzerland. Following his retirement, he has kindly dedicated his time, expertise, and technical skills to improve and install the electrical wiring system of the auditorium. His valuable contribution is helping us create a safe, functional, and well-equipped facility for our students and the wider school community.

## Ceiling work in the Main Auditorium Hall

The ceiling work in the Main Auditorium Hall is progressing steadily. The purlins for the ceiling have been fixed to the required dimensions and installed with high-quality welding standards to ensure strength and durability. The insulation materials have also been received and are safely stocked on-site, ready for installation in the next phase of the project. Once completed, the insulated ceiling will help maintain a comfortable indoor environment throughout the year.

## Thank You TCEF

Thank you for your generous support and unwavering trust in our vision. The Multipurpose Auditorium Hall is steadily taking shape and is getting ready to serve our entire school community, especially for its much-awaited inauguration on 21st August.

In our next report, we will provide updates on the following areas:

Flooring Main Auditorium Hall

Ceiling Work Main Auditorium Hall

Side Panelling Main Auditorium Hall

Sound and Lighting System Main Auditorium Hall

Painting Work Main Auditorium Hall

We extend our heartfelt gratitude to Gyen Karma La, Ama La, Jennifer, Mr. Roy, and all the esteemed Board Members whose faith, and support have made this project possible. Your generosity is helping us create a lasting space for learning, cultural activities, and community gatherings for generations to come.

On behalf of the students, staff, and the entire Rainbow School family, we offer our sincere thanks. We shall always remain grateful for your kindness and confidence in us. Thank you all, and we look forward to sharing more progress report with you in our next report.

With heartfelt gratitude,  
Rainbow School, Zanskar
